"B cell maturation protein is a receptor for the tumor necrosis factor family member TALL-1.";

Proc. Natl. Acad. Sci. U.S.A. 97:9156-9161(2000).

-!- FUNCTION: Receptor for TNFSF13B/BLyS/BAFF and TNFSF13/APRIL.

--- Promotes B-cell survival and plays a role in the regulation of humoral immunity. Activates MF-kappa-B and JNK.

--- SUBUNIT: Associates with TRAF1, TRAF2, TRAF3, TRAF5 and TRAF6.

--- INTERACTION:
                                                                                                                                                                                                                                                                                                                  InterPro; IPR001368; TNFR_c6.

FUNCTION: Receptor for TWFSF13B/BLyS/BAFF and TWFSF13/APRIL.
Promotes B-cell survival and plays role in the regulation of humoral immunity. Activates NF-kappa-B and JNK (By similarity) SUBUNIT: Associates with TRAF1, TRAF2, TRAF3, TRAF5 and TRAF6

Nat. Immunol. 2:632-637(2001).

-i- FUNCTION: Receptor for TNRSF13/APRIL and TNRSF13B/TALL1/BAFF/BLYS

-i- that binds both ligands with similar high affinity. Mediates
calcineurin-dependent activation of NF-AF, as well as activation
of NF-kappa-B and AP-1. Involved in the stimulation of B- and T-
cell function and the regulation of humoral immunity (By
similarity).

-i- SUBUNIT: Binds TRAF2, TRAF5 and TRAF6. Binds the NH2-terminal
domain of CAMLG with its C-terminus (By similarity).
                                                                              REPEAT
